

Letter from Elizabeth, one of the village children we are sponsoring:

Dear Sponsor,

I was a student of Baptist School Complex and Orphanage where I am writing from. This term has been interesting term at the school, which involved various kind of activities including learning, athletics, sports and entertainment. The teachers helps us seriously, for everyone in this class academically perform.

I am a General Arts student and in first year. I offer core and elective subjects of which my core are Integrated Science, English, Math and Social Studies, while my electives are Christian Religious Studies, Government and Economics.

Aside my academic duties, I am a member of the Scripture Unit in a religious denomination in the school where the word of the Lord is being taught to us for living a good life.

Futhermore, I am holding no leadership position at my school yet, by the grace of God in next two years I would be taking part in a leadership position. As I said earlier, I am a General Art Student, I want to become a nurse in the future. So I am leaving a stone unturned for my studies in order to obtain a good result after schooling in order to help me examination in one of the University of Ghana, there to further my course as a nurse.

Last but not least, I am much grateful for the sponsorship for last term and promise not to let you down for your support.

God Richly Bless You
Yirkenkyi, Elizabeth
