

Letter from Sophomore: Eunice Larko

Dear Sponsor,

I am Eunice Larko, a student from Mount Sinai Senior High. I am doing very well in school and the term has been a successful and also an interesting term because we had our interschool athletics and also the drama and debate clubs of my school organized debate and drama competition with other schools which we were not first but did our best to hold second position.

I am offering General Arts which I always talk to you about, because I want to become a Journalist in the future, and this course includes both core subjects and elective subjects and some of my electives are literature, Government, economics and Christian Religious studies. As of now, the only subject I find difficult is Government and Intergrated Science, but I promise to study hard and pass them.

I also joined the debate and drama club at my school this year. I hope to do well at that field also. The plan for my future is to study hard and be successful in my education. I want to attend school of Journalism in the near future. I also promise to study hard and be part of your sponsorship.

Finally, I take this privilege to thank you for your full support and your help for my education. It is my prayer that God bless you and give you abundant whatever you have spend on me. God richly bless you.

Thank you.

Yours Faithfully
Larko, Eunice
